INDEX Volume XIII, 1956–57

Figures in heavy type preceding page references indicate the parts of *The Advancement of Science* in which references will be found.

Title of communications are frequently abbreviated.

ADAMS, J. W. L., Universities and managerial education, **51,** 239
ADIE, Dr. R. J., Graham Land, **51,** 231, **53,** 454
Administration, education for industrial, **51,** 234
  part-time courses in education for, D. R. O. Thomas, **51,** 234
  University education for, Prof. R. W. Revans, **51,** 234
Afforestation, effect on yield of water catchment areas, F. Law, **51,** 239
  of water catchment areas, A. Bleasdale, **51,** 239
Agricultural, engineering, **51,** 239
  Science in tropics, H. J. Page, **51,** 239
Agriculture, and the balance of nature, **51,** 239, **53,** 439
  control of vertebrate pests in, Dr. I. Thomas, **51,** 239, **53,** 443
  mechanisation of, D. R. Bomford, **51,** 240
Air pollution and forestry, A. J. Grayson, **51,** 239
ALLAN, Miss M. D., Perceptual skills, **51,** 237
Alloys, high temperature, H. E. Gresham, **51,** 235
Angling, natural history of, B. Venables, **51,** 233
Animal, behaviour, Dr. W. H. Thorpe, **50,** 42, **51,** 232
  feed, antibiotics and hormones, Dr. G. E. Lamming, **51,** 239
  motility and learning, S. A. Barnett, **51,** 232
  nutrition, **51,** 239
Antarctic, expedition, 1955–58, Dr. A. F. Rogers, **51,** 237, **53,** 419
  research, **51,** 231, 234, **53,** 452
  seals, Dr. R. M. Laws, **51,** 232
  winds and weather, H. H. Lamb, **51,** 231, **53,** 467
  zoology, Dr. N. A. Mackintosh, **51,** 232
Antarctica, birds of, B. Stonehouse, **51,** 232
  fauna, Dr. G. C. L. Bertram, **51,** 232
  twentieth-century man against, Sir Raymond Priestley, **50,** 3
Anti-oxidants, **51,** 231
  food industry, Dr. C. H. Lea, **51,** 231
  oil industry, C. N. Thompson, **51,** 231
  rubber industry, J. T. Watts, **51,** 231
Anti-proton, Prof. H. S. W. Massey, **51,** 230
ANSTEE, J. W., Pattern-welded swords, **51,** 236
Arctic plant growth, Dr. J. Warren Wilson, **51,** 238, **53,** 383
Arenaceous foraminifera in Kimeridge Clay, A. J. Lloyd, **51,** 232
ARMSTRONG, A. L., Palaeolithic Cultures, N. Midlands, **51,** 235
ARMYTAGE, Prof. W. H. G., American influence on British education, **51,** 329, **52,** 301
Artefacts, ancient, and burial conditions, T. W. Farrer, **51,** 236
Artist and countryside, S. D. Cleveland, **51,** 240
Arts courses and science courses, Dr. R. C. Smail, **51,** 239, **53,** 426
Assembly of Corresponding Societies, 1956, **51,** 189
ATKINSON, Prof. F. S., SANSOM, W. H., SCOTT, A., Coal face mechanisation, **51,** 235
Atmospheric pollution, Dr. G. Scurfield, **51,** 239
  and climate, Dr. Alice Garnett, **51,** 234
  and plant growth, Dr. P. F. Wareing, **51,** 239
Atomic energy, and automation, Dr. D. Taylor, **51,** 235
  metallurgy of, L. Rotherham, **51,** 230
Attitudes in working group, R. A. M. Gregson, **51,** 238
AUBER, Dr. L., Fibres, development of animal, **51,** 232
AUCOTT, Miss J. V., Peak District National Park, **51,** 234
Auditory vigilance tasks, E. Elliott, **51,** 237, **53,** 393
Automatic control of processes, A. J. Young, **51,** 235
Automation, The Rt. Hon. the Earl of Halsbury, **51,** 235
  economic effects, Prof. H. D. Dickinson, **51,** 234, **53,** 432
  scientific background, J. F. Coales, **51,** 235

Bacterial motility and cellular variation, Dr. C. Quadling, **51,** 232, 238
BALME, Miss O., Species distribution on Derbyshire limestone, **51,** 238
BARBOUR, Dr. R. F., The maladjusted child, **51,** 237
BARNARD, Prof. G. A., Economic aspects of statistical procedures, **51,** 230
BARNARD, Dr. T., Microfossils from Chalk, **51,** 232
BARNETT, S. A., Animal motility and learning, **51,** 232
BARNICOT, Dr. N. A., Blood groups, **51,** 203, 236
BARRACLOUGH, F., The lay contribution to education, **51,** 239
BARTLETT, Dr. E. M., Report of Committee on Maladjusted Children, **51,** 237
Bats, British, M. Blackmore, **51,** 232
BAXTER, Prof. A. D., Rocket propellants, **51,** 230
BEALE, Dr. G. H., *Paramecium*, antigens of, **51,** 232, 238
BEARDMORE, J. A., *Drosophila* genotypes, **51,** 233, 238
Bee-eaters in Britain, J. J. Swift, **51,** 240
Bees, communication in swarm, Dr. M. Lindauer, **51,** 233
BELSON, W. A., Effects of television, **51,** 237
BENHAM, Prof. F. C., Education—allocation of resources, **51,** 239
BERTRAM, Dr. G. C. L., Antarctic fauna, **51,** 232
BIEK, L., Ancient glass and metal, summing up, **51,** 236
Biochemistry, growth of, Prof. F. G. Young, **52,** 276
Birds, vocal signals in, Dr. P. Marler, **51,** 233
BLACKETT, Prof. P. M. S., Rock magnetism, **51,** 230
BLACKMORE, M., British bats, **51,** 232
BLEASDALE, A., Afforestation of water catchment areas, **51,** 239
BLIGHT, D. P., dust clouds, **51,** 235
Blood groups, **51,** 235
  and anthropolgy, **51,** 191, 232
  and archaeology, H. W. M. Hodges, **51,** 196, 235
  and disease, Dr. J. A. Fraser Roberts, **51,** 235
  and evolution, Dr. A. E. Mourant, **50,** 91
  in Gt. Britain, Dr. Ada Kopec, **51,** 200, 236
  in ruminants, J. V. Evans, **51,** 198, 235
  in S. Wales, R. Jones, **51,** 236
Blue John stone, Derbyshire, Dr. T. D. Ford, **51,** 240
BOMFORD, D. R., Mechanisation of agriculture, **51,** 239
BOOTH, Dr. A. D., Translation of language by electronic machinery, **51,** 235
BOSWELL, Dr. J. G., Observations on natural soils, **51,** 238
BOWEN-JONES, H., Malta, **51,** 234
BOWEN, Prof. I., Population and social sciences, **51,** 234, **52,** 311
BOX, Dr. G. E. P., Evolutionary operation, **51,** 230
BOYCOTT, B. B., Perception by the octopus, **51,** 233
Brain, sensory discrimination in, Miss V. R. Cane, R. L. Gregory, **51,** 236
British Association, functions of, **51,** 205
  British, Commonwealth, geography, **51,** 234
  mammals, studies on, **51,** 232
Brittle fracture, Dr. N. J. Petch, **51,** 230
BROADBENT, D. E., Perception of speech-sounds, **51,** 233
  The vigilant man, **51,** 237, **53,** 399
BROWNLEE, A., Nervous activity in domestic cattle, **51,** 233
BROWNLEE, L. D., Powder metallurgy, **51,** 235

INDEX Volume XIII, 1956–57

BROWNLEE, A., Nervous activity in domestic cattle, **51,** 233
BROWNLEE, L. D., Powder metallurgy, **51,** 235

BUNTING, Miss A., *Periplaneta americana*, **51**, 240
BUTCHER, L. H., Quern workings, near Sheffield, **51**, 235

CAMPBELL SMITH, Dr. W., South Victoria Land 1914, **51**, 231, **53**, 476
CAMPLING, R. C., Comparison of grazing methods, **51**, 239
CANE, Miss V. R., GREGORY, R. L., Sensory discrimination in brain, **51**, 236
Capps, A. W., Heat husbandry on small farm, **51**, 240
Carboniferous, and Permian rocks of St. Jonsfjorden, Vestspitsbergen, Dr. D. L. Dineley and P. A. Garrett, **51**, 232
sediments in Derbyshire, **51**, 231
CARTER, H. B., Merino, fleece structure of, **51**, 232
CATCHESIDE, Prof. D. G., Genetics of micro-organisms, **51**, 238, **53**, 481
Cattle, nervous activity in domestic, A. Brownlee, **51**, 233
CHAPMAN, Prof. G., International Geophysical Year, **52**, 259
Charterhouse astronomical project, K. L. Watson, **51**, 240
Chemistry at high temperatures, **51**, 230
CHESTERS, J. K., Ecology of Porter Brook, **51**, 240
CHILDE, Prof. V. G., Archaeological significance of ancient metalworking, **51**, 236
Children, problems of maladjusted, **51**, 237
CHRISTOPHERSON, Prof. D., Dr. W. B. PALMER, P. L. B. OXLEY, Orthogonal cutting, **51**, 235
CLAPHAM, Prof. A. R., RATCLIFFE, D., Therophyte communities on Derbyshire limestone, **51**, 238
Vegetation Studies in S. Pennines, **51**, 238, **52**, 253
CLARK, Dr. M. M., Learning to count, **51**, 238
CLEGG, Dr. J. A., Rock magnetism, **51**, 230
CLEVELAND, S. D., Artist and countryside, **51**, 240
Climate, and atmospheric pollution, Dr. Alice Garnett, **51**, 234, **52**, 331
and heating, Prof. G. Manley, **51**, 234, **52**, 324
and irrigation, in Nigeria, Prof. B. J. Garnier, **51**, 234, **52**, 351
local, and house heating, M. Parry, **51**, 234, **52**, 326
Climatic resources, use and misuse, Prof. A. A. Miller, **50**, 56, **51**, 234
Climatology, **51**, 234, **52**, 323
COALES, J. F. Scientific background of automation, **51**, 235
Coal face mechanisation, Prof. F. S. Atkinson, W. H. Sansom, A. Scott, **51**, 235
Cold, acclimatisation, Dr. P. Massey, **51**, 237, **53**, 418
COLLINSON, P. L., and GOOSSENS, R. F., Yorkshire and East Midlands Coalfield, **51**, 231
Combustion, control of secondary air in, M. G. Perry, **51**, 235
Community and social class, Dr. P. H. Mann, **51**, 237
Complex patterns, perception of, **51**, 233
CONDER, E. M., Private forestry in industrial areas, **51**, 239
CONNOLLY, Miss A., late glacial plants, Whitrig, **51**, 238
'Conscious' machines, J. Sargrove, **51**, 235
COPE, Prof. F. W., Carboniferous sediments in Derbyshire, **51**, 231
COGHLAN, H. H., Provenance of early metal implements, **51**, 236
Council's Report to General Committee, 1955–56, **51**, 215
Count, learning to, Dr. M. M. Clark, **51**, 238
COX, Sir Christopher, Impact of British education on oversea territories, **50**, 125, **51**, 239
CUTHBERTSON, Dr. D. P., Metals in living systems, **51**, 231
Cutting tool performance, Dr. D. F. Galloway, **51**, 235
Cyprus, land use in, K. R. Sealy, **51**, 234

DANI, A. De, and JELLYMAN, P. E., Glass fibre forming, 51, 231
DAVIES, Dr. J. G., Radio observation of meteors, **51**, 230
DEACON, W. J., Maladjusted children, the Education Authorities, **51**, 237
Deer, the British, F. J. Taylor Page, **51**, 232
Derbyshire, agricultural geography, Dr. H. C. K. Henderson, **51**, 234
historical geography of E. Moor, Dr. S. R. Eyre, **51**, 234
Limestone, **51**, 231
Design, for limited life, Prof. J. A. Pope, B. K. Foster, Dr. N. T. Bloomer, **51**, 235
Dibunophyllum zone, R. A. Eden, **51**, 231
DICKINSON, Prof. H. D., Economic effects of automation, 51, 234, **53**, 432
DINELEY, Dr. D. L., and GARRETT, P. A., Carboniferous and Permian rocks of St. Jonsfjorden, Vestspitsbergen, **51**, 232
DOUGLAS, Prof. R. W., Vitreous state, aspects of, **51**, 231
Dovedale, Manifold, and Weaver Hills, A. Ludford, **51**, 231
DOWNIE, Dr. C., Glacial history of Kilimanjaro, **51**, 231
micro plankton from Shineton Shales, **51**, 231
DREVER, Prof. J., Psychology and the humanists, **50**, 111, **51**, 237
Drosophila, developmental flexibility, J. Maynard Smith, **51**, 233, 238
gentotypes, J. A. Beardmore, **51**, 233, 238
Drugs and perception, Dr. C. M. Franks, **51**, 237
DUDDINGTON, Dr. C. L., and JUNIPER, A. J., Predaceous fungi, **51**, 233
Dust clouds, D. P. Blight, **51**, 235

EAGAR, Dr. R. M. C., Flockton Coals of Yorkshire Coal Measures, **51**, 232
Ecological research and farming, E. M. Nicholson, **51**, 239, **53**, 439
Eden, R. A., *Dibunophyllum* zone, **51**, 231
EDHOLM, Dr. O. G., Polar physiology, **51**, 237, **53**, 411
Energy expenditure, **53**, 489
Education, American influence on British, Prof. W. H. G. Armytage, **51**, 239, **52**, 301
human relations in, Miss J. E. Richardson, **51**, 239
impact of British on oversea territories, Sir Christopher COX, **50**, 125, **51**, 239
lay contribution, F. Barraclough, **51**, 239
universities and managerial, J. W. L. Adams, **51**, 239
voluntary factor, in, Dr. R. W. Stopford, **51**, 239
Education, and productivity in underdeveloped territories: allocation of resources, Prof. F. C. Benham, **51**, 239
technical education, J. C. Jones, **51**, 239
Western schooling, P. C. C. Evans, **51**, 239
fundamental education, R. K. A. Gardiner, **51**, 239
Education in underdeveloped territories: quality or quantity?, **51**, 239
problems of priorities, E. W. Woodhead, **51**, 239
demand for higher education, Sir James Robertson, **51**, 239
teacher training, Miss F. H. Gwilliam, **51**, 239
national aspirations, P. M. Sherlock, **51**, 239
Educational achievements of young men, Dr. J. A. H. Lee, **51**, 238
EDWARDS, Dr. A., Industrial permanent magnets, **51**, 230
EDWARDS, R., University training for management, **51**, 237
EDWARDS, Wilfrid, Yorkshire and East Midlands Coalfield, **51**, 231
Eelworm, Cereal-root, J. J. Hesling, **51**, 233
larval emergence of, Dr. D. W. Fenwick, **51**, 233
migration of beet, Dr. H. R. Wallace, **51**, 233
self-control in potato-root, Dr. C. Ellenby, **51**, 233
ELLENBY, Dr. C., Self-control in the potato-root eelworm, **51**, 233
ELLIOTT, E., Auditory vigilance tasks, **51**, 237, **53**, 393
ELLIS, Dr. Peggy E., Locust, does imprinting occur in?, **51**, 232
Emotions, collective, and mental epidemics, Dr. F. Kräupl Taylor, **51**, 237
Employment of boys in industry, O. W. Reynolds and D. R. O. Thomas, **51**, 237
Endeavour essay, J. M. Vail, **53**, 364
Energy, expenditure, **51**, 237, **53**, 486
input and output, Dr. R. Passmore, **51**, 237, **53**, 486
ESSEN, Dr. L., Measurement of velocity of light, **51**, 230
EVANS, J. V., Blood groups in ruminants, **51**, 198, 235
EVANS, P. C. C., Western schooling and rural productivity, **51**, 239
Evapo-transpiration, J. L. H. Sibbons, **51**, 234, **52**, 354
Evolution, significance of genetic latency of viruses, K. McWhirter, **51**, 238
Evolutionary operation (in statistics), Dr. G. E. P. Box, **51**, 230
Eye movements, Dr. P. A. Merton, **51**, 236
EYRE, Dr. S. R., Historical geography of East Moor, N. Derbyshire, **51**, 234

Falkland Islands 1944–55, D. H. Maling, **51**, 231, **53**, 460
Farming, motive power of the future, H. J. Hamblin, **51**, 240

FARRER, T. W., Ancient artefacts and burial conditions, **51,** 236
FEARNSIDES, Prof. W. G., Distribution of metalliferous ores, **51,** 236
FENWICK, Dr. D. W., Larval emergence of eelworms, **51,** 233
Ferromagnetic oxides, Dr. E. W. Gorter, **51,** 230
Fibres, development of animal, Dr. L. Auber, **51,** 232
